TO SAVE LIVES.

Boiler Makers Form a National Association.

MUST MAKE GOOD BOILERS

Is the Pledge Taken by Over 125 of the Manufacturers

TO PROTECT LIVES AND PROPERTY.

The Coal Men Hold a Conference and a Scrap is the Result.

RATES ARE FIXED BUT NOT ACCEPTED

One of the largest meetings of manufacturers ever held in this city occurred yesterday at the Hotel Anderson. Fully 125 manufacturers of boilers assembled in response to a call issued by the Pittsburg contingent of the boiler men of the United States. The object of the meeting was to form an association for the purpose of securing better material and better workmanship in the manufacture of boilers and thus prevent the frequent accidents by explosions. Almost all the prominent manufacturers in the country were present, including Colonel Robert Munroe, of this city, at whose works the most serious and recent explosion of the year occurred.

The meeting was called to order at 9 o'clock and James Lappan was made President and O. T. Douthett Secretary, and a permanent organization was formed and named the Ameri-can Boiler Manufacturers Association. A committee on resolutions was appointed and drew up the following, which was pre-

sented at the afternoon session and add unanimously: SIGNIFICANT RESOLUTIONS.

WHEREAS, No business calls for greater care better material in the construction of its commodify and more exact workmanship than ours, and in view of the fact that so many disastrous explosions have occurred in the past where mate-rial afterward lesied, has been shown to be of an inferior quality. Therefore, that we may better secure safety to the lives and the property of every community where bollers are used, be it Resolved. That we will in all cases use the best material in the construction of hollers, refusing to accept contracts where specifications do not call for material of a suitable quality and that it is the sense of this convention that the system of inspection prescribed by the United States marine be used in the construction of steam bollers, to be known as C. H. No. 1 flange iron and marine flange steel respectively with a tensile strength of not less than 55,000 or more than 65,000 pounds and pledge ourselves to use all honorable means to innence our representatives in Congress to pro-ure the passage of such laws as will

MAKE IT A CRIMINAL OFFENSE. punishable by a fine and imprisonment to manufacture or sell iron or steel for bollers of an inferior quality and a similar offense punishable in like manner for the manufacture of bollers for any purpose of an inferior quality to that specified after the passage of such laws. We also recom-

the turisdiction of this association.

Resolved, That we invite all manufacturers of boliers to join our association, knowing as we do, that our object is purely philanthropic and that we are bestowing one of the greatest blessings upon the public at large, who should look with distrust upon any manufacturer who, by reason of personal motives, refuses to take this important

At the evening session the committee ap pointed on the question of tensile strength presented their report. It caused quite an anited discussion, and was finally laid on the table. The report is as follows:

THE TABLED REPORT. Your committee to whom was referred the que tion of tensile strength would report that after considerable explanation from representatives of the various steel firms, and in view of the fact that many of us have occasion to build boilers for marine purposes where high pressure is required, thus increasing the tensile strength to meet the ressure requirements, would suggest that the nimum strength of iron and steel be established bitinium strengto of fron and steel be established by this association at 55,000 pounds to the square inch, and the maximum tensile strength be left to the necessities of our customers and the terms of marine haw which we have already adopted, but in regard to believe for stationary purposes we are not to be governed by the United States Board. of int to be governed by the China States hoard of Supervising Inspectors, wherein they state that to shell of a bedier where the same comes in con-act with the boiler shall exceed twenty-six-hun-lresiths of an inch in thickness.

Another session will be held this morning, after which the delegates will visit several leading iron and steel mills in this vicinity. Several invitations have been received, including Carnegie Bros. & Co., Carnegie, Phipps & Co., the Spang Steel and Iron Company, Park Bros. & Co. and the National Tube Works. THE MOST PROMINENT.

Among the prominent manufacturers pres ent were Chris Cunningham, of Green Point, N. Y.: George M. Trefts, of Buffalo: Philip Ro han, of St. Louis; Richard Garstang, of St. Louis; John H. Collins, of Amsterdam, N. Y.; J. W. Wood, of Phillipsburg. N. J.; Reeves Bros. of Niles, O.; D. Connelly, of Cleveland; Alongo L. Cady, of Steubenville; George Mar-

Alongo L. Cany, we shall, of Dayton.
The convention adjourned at midnight, after
The convention adjourned at midnight, after The convention adjourned at midnight, after having adopted a constitution and by-laws. Secretary Bouthett offered a resolution, which was adopted, inviting members of the Pittshurg press to accompany the visitors on their tour to-day. The following programme was laid out: All the boiler men in the city will most at the Hotel Anderson at B o'clock this programs and spreed in carriages to the Black orning and proceed in carriages to the Black lamond Steel Works and other mills, and will en board the steamer Mayflower and go to comestead and Braddock, taking in the large

Is Fixed by Miners and Operators' Repre-

The mining rate in Western Pennsylvania and Ohio has been fixed for the year beginning May 1, but the rivalry between the two leading organizations of miners may result in trouble. The National Progressive Union men, the K. of L. and unorgansed miners are blaining each other for bad management. It is claimed that a straight 24 cents a ton rate could have been secured if President McBride had not issued his circular President McBride had not issued his circular advising the men to accept the operators' proposition. This is contradicted by Mr. McBride, who admits that he advised the acceptance of the proposition, but when the members of the organization voted on the question and decided to reject his advice he kept out of the fight.

The conference on the wage question was held yesterday afternoom in the rooms of the Engineers' Society. There were present four Chio operators and a like number of miners, and also eight miners and operators from this State, making 10 in all entitled to a vote. The representatives were as follows: Ohio operators—L. B. Doty, Edward Martin and Messrs. Herd and Turney, the two last named refusing to participate: miners—Thomas Bentham, John Nugeut, James O'Donnell and Robert Watchorn: Pennsylvania operators—F. L. Robbins, D. M. Anderson, Upson Andrews and Alexander Dempster: miners—Thomas Hendam, W. W. Miller, John Osbourne and J. B. Ren.

When the conference was called to order officers were elected. Mr. Dempster was made chairman and Mr. Benitham was chosen as accretary. The operators presented their proposition which was published in this name.

chairman and Mr. Bentham was chosen as accretary. The operators presented their proposition which was published in this paper the other day, and is as follows: For Pennsylvania from May I to November I, 71% cents per ton, and from November I to May I, 70% cents; for Ohio 62% and 67% cents. Their proposition contained the statement that they would not deal with any labor organization, but would sign the scale with the miners of the two States.

onble between the N. P. U. and the The trouble between the N. P. U. and the K. of L. miners was commented on at length, and it was decided to hear from miners' representatives. A large number responded, and neveral caucuses were held in different parts of the unilding. At 520 the delegates were instructed and went into the conference room and voted. The ballot resulted in the acceptance of the operators' terms, although the Western Pennsylvania miners cast their ballots against accepting the terms of the operators.

This information was obtained from the Secretary, Mr. Bentham, who said that had it not

been for Mr. McBride's advice to the members

been for Mr. McBride's advice to the members of the N. P. U., the Pennsylvania miners could have demanded and received 74 ceuts for mining for the year. This statement Mr. McBride denies, and says that all the assemblies of the N. P. U. voted against the acceptance of his recommendation, and that as he is an officer, he will obey their wishes.

The rate for mining is fixed at the above terms by the miners and operators present, but as the N. P. U. took no part in the conference as an organization, it is believed the terms will not be accepted by their members. The Knights of Labor may not accept, and to sum the matter up in brief the conference may be called a farce. Until the two organizations cease the fight for the supremacy, it will be almost an impossibility to arrange a satisfactory and uniform scale of wages.

Secretary Bentham, who is a member of the Knights of Labor, said at the close of the conference, that the rate for the year had been fixed, but had it not been for President McBride's circular a better rate could have been secured.

This was denied by President McBride, who

been secured.

This was denied by President MeBride, who stated that although he had advised the acceptance of the operators' terms and issued a circular to that effect, the members of the union had voted against it, and therefore the N. P. U. should not be blamed for the publication of his circular.

circular.

The conference was a very lively one, and it is stated that Patrick McBryde said: "If John McBride would come up here I would knock his head off with a cobbie stone." This statement was corroborated by Mr. McBride and several others who had heard it, but they claimed it was only said as a joke.

WHEREAS, The representatives of the miners of Western Fennsylvania have recently and repeatedly decided that their mining affairs should be conducted by the National Progressive Union, and.

and, whereas, When, in accordance with that de-cision, the officers of the National Progressive Union called a convocation to consider the propo-sition to them by the operators of Ohio and the Pittsburg district relative to the running for the ensuing year: that J. B. Bea and other leaders of N. T. A. No. 120 sought admission to the conven-tion as miners' delegates, having had the court-cises of the convention extended to them by al-lowing them to participate in the deliberations, malicionsly sought to disrupt the meeting. Fall-ing in their design to do so they withdrew, and with the seven men who accompanied them have Ith the seven men who accompanied them have sued a series of resolutions, beginning with: We, the railroad miners of the West Pennsyl-am district, "such arrogant statement being isseading and likely to cause misunderstanding,

misicading and likely to cause misunderstanding therefore, be it Resolved. That in the representation of the miners of the Pittsburg district in convention assembled, after hearing President McBride's reason for issuing his circular relating to the proposition of the operators and to advice contained therein, believe that his action was not only justifiable and in keeping with his position as President of the National Progressive Union. We condemn the resolution printed in the morning papers as unjust and entirely uncalled for. Be it for there is the most interesting the proposition of our constituents, the majority of whom demand 75 cents per ton for the entire year, we are unshe to accept the conditions proposed by the operators, and as no other terms have been offered, we resolve to adjourn the convention.

A SUPERINTENDENT DISCHARGED.

Fresh Trouble at the Works of the Allegheny Bessemer Steel Company. The strike at the Allegheny Bessemer Steel Company's plant, at Duquesne, is still on, and from present indications it may be

a prolonged one. The Braddock men who are employed there say that it would be impossible to continue at the present method of working during the heated term, even if their wages were advanced. They claim that they are compelled to work unceasingly for 14 hours sometimes, for a day's work. The stopper car-

sometimes, for a day's work. The stopper carriers work eight hours a day at the Edgar Thomson and make \$3 50 a day. The Duquesne men are paid by the day and receive \$1 50.

Something out of the ordinary occurred at the works yesterday morning.

When President Clark arrived at the some, he requested Superintendent John Edwards, of the converting mill, to get together what men he could and make an effort to blow steel. It was the intention of the firm to put the converting department on double turn on Thursday, Mr. David Williams had come on to take charge of the other turn, whereupon Mr. Edwards asked that Mr. Williams be given a chance to try his hand, at the same time refusing to comply with the request. He was at wards asked that Mr. Williams be given a chance to try his hand, at the same time refusing to comply with the request. He was at once discharged, President Clark saying that not a man employed under Mr. Edwards in the converting department would be allowed to return to work after the difficulty was adjusted. Things appear to be rather blue, but the men say they will not return to work at the present rate of wages, while the firm declare that they are determined that the works shall be operated. Something interesting is expected to deated. Something interesting is expected to de-velop within a few days.

A BIG STRIKE PROBABLE.

Jefferson County Conl Miners Refuse to

Accept a Reduction. A general strike is imminent in the Jefferson county coal regions. The owners of the Adrian mines have offered their employes a reduction of 5 cents per ton in the price of mining coal, that is, 35 cents instead of 40 cents, the present rate. The miners have deed to accent the reduction, and if an attempt is made to enforce it upon them, as is extremely probable, all of the other companies will make similar reductions, and the result will be a general strike involving thousands of

The miners claim that all Things considered The miners claim that, all 'things considered, the Adrian operators are getting their coal mined for less than 25 cents per ton, and, as companies operating their veins pay from 50 to 76 cents per ton for mining, and still prosper, they think the Adrian people could manage to struggle along at the ostensible rate of 70 cents

John D. Conway, of this city, President of John D. Conway, or this city. President of the Miners' Progressive Union, was in the region during the past few days trying to get matters fixed up so as to prevent the proposed reduction. It is said that the large coal buyers are holding back their orders in anticipation of lower prices for coal when the reduced scale for mining goes into effect.

THOSE IMPORTED GLASSWORKERS. They Deny That They Were Brought to

This Country Under Contract. The mystery, for it is a mystery, as to the circumstances under which the 25 window glass workers were brought to this country and sent to Jeannette, is becoming deeper. The men, as heretofore, deny that they came to rived at Jeannette there was a good meal awaiting them, and as they were without funds one of them asked who was to pay for the meal. The reply was "Never mind. Eat your

About a dozen of them were seen yesterday and all denied having been imported under contract. They said they were members of the Knights of Labor and had met President Campbell when he was in England last summer, They said they had been told there was work in this country, and had come expecting good positions, but are not satisfied with the pros-

omestead and Braddock, taking in the large orks of the Carnegies.

THE RATE FOR MINING

Fixed by Miners and Operators' Representatives—The K. of L. and N. P. U.

Will Not Accept the Terms, However.

Mr. McKee, of Chambers & McKee, said they would need men in a few weeks to operate their new tank furnace and all of the foreigners would be employed. Until the furnace is ready the men will be given laboring work.

President Campbell said last night that none of the men had been to see him, but he had no effect here.

Will Not Accept the Terms, However.

A STATEMENT DENIED,

Pit Men Apparently Do Not Get Such High

Wages as Were Published. A steel worker at Homestead writes to THE DISPATCH correcting an item that appeared in this paper yesterday to the effect that the metal wheelers there received from \$2.50 to \$3.50 for eight hours, and the pit men in the converting department got from \$5.75 to \$6. He says the pit men earn but \$3 and the metal wheelers \$2 for eight hours.

Mine Inspectors' Examination. The Examining Board for Mine Inspector met yesterday in the old University building to examine applicants for positions. There are eight positions to be filled, and there are about 60 applicants. The salary is \$2,000 per year and expenses. The examinations will likely be completed by Saturday.

NOBLE MAN SHUT OUT Church Entertainments That Work-

ing Girls Only May Attend. NO INVITATIONS ISSUED FOR MEN.

Hon. B. C. Christy Tells the Girls What Their Best Rights are.

A PLEASANT PERFORMANCE IS GIVEN That most high and mighty lord of crea-

tion, commonly called man, who usually thinks he is monarch of all he surveys, has been outwitted by a little band of women in the Second U. P. Church, Allegheny. These ladies are now conducting a series of entertainments for working girls and for no others. They have distributed 1,500 tickets among the various factories and shops in this city in which girls are employed. Each ticket is punched by the doorkeeper, who is a gentleman, as the ladies do not think they are able to cope with such an arduous

The entertainment last evening was excellent and was very well attended. But the vast majority of that audience were girls, and a handsome and entertaining andi-ence it was, too, vastly more delightful than

any performance.

The programme was opened with a selection by the Euturpia Orchestra, composed of good performers. Mr. Kirk and Miss Kirk sang a duet, after which the Misses Lautner played a

THE WALTZ IN CHURCH. Then, shades of the immortal John Knox! entrancing of waltzest An audible smile was heard among the lady managers, and one of them asked what one of their former pastors would think of such a peformance.

Mr. Thompson sang a solo and the Moeckle
Brothers, who formed an orchestra played a

B. C. Christy, Esq., made an address. He opened his talk with the remark "he had never

faced so many ladies in his life before," and to tell the truth Mr. Christy blushed and was timed. After a little pleasant nonsense, he made some remarks on "Women's Rights," which were much applauded. He said: I reverence a good, true woman and they have their sphere in life, but iff will be a sorry day for women when they are given the right to vote, when they are to be dragged into the slush and sium of political life. For 20 years I waded through this slush and then even I had to give it. You talk of women elevating politics, Take up a bottle with ink in it and you may pour pare snow into that bottle for a year and that ink will never be made white.

EVERY MAN PREFERS odest maiden, the good wife and the true

woman to petticoated philosophers and blustering viragos. The woman who cares for her husband nd children, does more for humanity and is ore use to the world than those who go about more use to the world than those who go about complaining and almost quarrelling with God because he created them women. The first step that a woman should take is to become a Christian. A man without a God is to be pitied, but a woman without Christ is a horror. You complain that you are only a weak woman and can do nothing. The weeping Magdalene has had more influence on mankind than the bold Peter.

Mr. Christy closed his remarks by paying a delicate and pretty compliment to his hearers. The remainder of the programme consisted of instrumental music by the Cruikshank family, a song by Mr. Kirk, who wore a Scotch costume, selections by the Moeckle brothers, and music by the Lautner family. Mrs. Lizzle Pershing Anderson rendered two interesting selections during the evening performance,

RAILWAY DISCRIMINATION.

Blanchard Says the Commission Will Meet in Chicago This Week. G. R. Blanchard, Chairman of the Central

Traffic Association, passed through the city last night on his way to Chicago to attend a meeting of the association. He will also be present at the meeting of the Inter-State Com-merce Commission at Chicago this week. In an interview Mr. Blanchard amplified the questions propounded to Chairman Cooley,

meeting.

Mr. Blanchard said they could do this, although Solicitor Brooks, of the Pennsylvania Company, said they could not. Judge Cooley would not give a decision about the matter until the meeting in Chicage. The chairman further stated that this is the very same principle involved in Mr. Carnegie's tirade against the Pennsylvania Railroad. It is impossible to make rates for every point, and there must be a certain tariff for all points within a radius of certain limits.

certain limits.

This is the matter mentioned in another colomn, and involves the principle of pro-rating The decision of the officials of the Pennsyl

vania Company to pro-rate with Western ro was based on the stand Chairman Blanch;

A PRESS CLUB TRIBUTE.

Resolutions of Condolence With the Family of Major Omohundro Adopted.

A special meeting of the Press Club was held yesterday afternoon to take action on the death of Major Sidney Omohundro, whose funeral is to be held in the Oakland M. E. Church at 3 P. M. to-day, John N. Neeb, N. B. Heath and G. F. Muller were appointed

a committee on minute and presented the fola committee on minute and presented the ioilowing:

WHEREAS, In His wisdom, the Almighty has seen
fit to remove from this world our friend and fellow worker, Sidney Omohundro; therefore,
Resolved, That we hereby express our sincere
and heartfelt sorrow at the untimely calling away
of our fellow journalist and member of this club.
Also, that we extend our hearfelt sympathy to the
bereaved family of the deceased, and that we request the President of the Press Club to appoint a
committee to represent the club at the funeral.
Resolved, That a copy of this minute be transmitted to the family of the deceased.
President Connelly appointed Messrs. John
N. Hazlett, E. S. Morrow, Charles F. Jahn
and George C. Jenks on the committee to attend the funeral. The club will send a suitable
floral tribute, to be placed on Major Omohundro's casket.

BALLOT-BOX STUFF WANTED.

Little Boom in Lumber, Consequent Upon Probibition. There is a prospect for a little boom in lumber this season and considerable work for joiners. In his circular letter to the County Commissioners of the State, Secretary of the Commonwealth Stone directs those

officials to furnish to election boards ballot boxes in which to deposit the ballots for and against the Constitutional amendment.

The boxes are to contain two compartments (one for wet and the other for dry ballots), and Commissioners Mercer and Mc Williams were scratching their heads, somewhat puzzled to know whether the present six-compartment boxes would answer or whether they must order some 400 new ones.

They finally decided to write to Mr. Stone and ask him to explain. Should the law be construed to mean two compartment boxes there would be some 20,000 of them required. officials to furnish to election boards ballot

Singer.

The ceremony took place in the parior at 8 o'clock, the bride being accompanied by six maids of honor. The floral decorations throughout the lower part of the house were of throughout the lower part of the house were of unusual magnificence, and their artistic design made an exquisite effect.

Upon entering the front hall a beautiful screen of smilax dotted at different places with bunches of roses, was noticeable. This screen made a division in the vestibule, behind which the Toerge Orchestra was placed. Along the walls at each end of the screen stood enormous pots filled with tropical plants of various species. A very large vase of Jacque and bride roses had also been placed in the hall.

hail.

The parlor where the ceremony was solemnized was a perfect revelation of floral decorative art. The bay window, in front of which the bride and groom stood, was a bower of the most exquisite floral treasures. There were two curtains made of smilax and mermet roses, with hoops of bride roses. The lower part of the center pane was covered with a short curtain of smilax and pink roses, with a centerpiece of liac. The top border was banked with Baronness Rothschild and Mareschal Neil roses. From the middle of this bank garlands of pink roses were stretched across to the wall, and "breeches maker." Quay probably considers him a "breaches maker," also. THE Exposition contractor has been ordered THE Manhattan Club will give four outside exhibitions during the coming season. It is supposed that Cleveland will be one of them, A DRIVER, S. U. Bair, was thrown from his wagon on Beaver avenue, Allegheny, the fall dislocating a shoulder and fracturing an ankle. roses were stretched across to the wall, and from above a light was suspended with a pink shade. The reflection from this light, as it fell all around the mass of floral beauties, made everything appear in a hue of soft exquisite pink, which rendered the scene wonderfully VISITORS say Pittsburg young men are effective.

All the other rooms, the library and the dining room, were correspondingly beautiful. These decorations were the work of Mr. Dell, of John R. & A. Murdoch. Guards of Pennsylvania in this city will pretty generally attend the Centennial celebration in New York.

Patrick Connelly, charged with conspiracy to murder the two sons of Mrs. Norman, was dis-missed yesterday for lack of evidence. The Birmingham Street Car Co. Will Not MR. THOMAS E. HEWITT has returned to Change Its Motive Power.

Pittsburg, and announces the first publication, on April 20, of Facts, a new social, political commercial, speculative, sporting, labor and financial journal, with "Truth" for its motto. The old story was revived by an after non paper yesterday that the Birmingham Street Car Company contemplated adopting electric motor power on its road, and arrangements were being made to use the Tesla motor.

Mr. Patrick, President of the company, when asked whether he would corroborate the statement said:

asked whether he would corroborate the state-ment, said:

Not there is not the vestige of a foundation in truth for it. We had a meeting of the Board of Directors yesterday afternoon, and the thing was not even mentioned. Now, let me tell you this: We will never use electricity or any other than FAIR weather-'tis a pleasing thing to hear we will never use electricity or any other than herse power on our cars. unless we can do so to our great advantage. As for electricity, we will only use it when we can put the motive power in each car and run it individually, without depend-ing upon a central station power, a siot rail or a more if Wig keeps up the strain. Now it will be the proper thing for all good girls and boys to be as fair as fair can be and sweeten others'

DRAMATIC SCENE IN COURT.

An Alleged Lunatic Gives His Honor Wild Opinion of Justice.

There was quite a dramatic scene before Judge Stowe yesterday. It resulted from Judge Stowe yesterday. It resulted from bringing before the Court, on habeas corpus, William Lewis, of Bellevue, an inmate of Dixmont Insane Asylum. After other testimony, Lewis finally took the stand in his own behalf, and, failing to impress the Court with a story of discipline and a straight jacket he had to undergo while retting shaved at the asylum, threw his arms in a tragic manner and yelled: "You are are a darned lot of perjurers, the whole lot of you?"

This outburst was called forth by Judge Stowe's decision to remand Lewis until further order; Dr. Hutchinson, of the asylum, Constable Johnston, of Bellevue, Rev. C. F. Swift and William Morrow having previously testified of Lewis' threats to kill his wife, which had led to his incarceration. county, 86 did not put in an appearance and as some of the remainder applied for double, or wholesale and retail license and cannot get both, Clerk McGunnegle figures that there will not likely be much more than 1,000 licenses

A COUPLE OF RAIDS.

The Police Make Charges Against Alleged Downtown Dives. The Department of Public Safety raided the place of Mrs. Sophie Freeze, of 204 Mar-

the place of Mrs. Sophie Freeze, of 204 Mar-ket street, yesterday, and she was held in \$2.000 bail for selling liquor illegally, selling on Sun-day and keeping a disorderly house. Then Mr. Ray and Emma Miller, of the Na-tional Hotel, 250 Water street, were arrested by luspector McAlesse on similar charges. Ray claims he is the steward of a club, com-posed chiefly of Baltimore and Ohio Railroad men.

men.

May Reynold, of 145 Fulton street, was also notified yesterday by Inspector McAleese to close her house or it would be raided. She promised to get out by May 1.

AN OMINOUS OIL WELL

It Promises to be the Opening of a New and Rich Greasy Territory. signs in chantilly flouncings, and best and cheapest assortment of fish, Russian and La Tosca nets in the city.

MWFSu HUGUS & HACKE. Oil was struck on the McKinney farm, in Cranberry township, Butler county, yester-day, in a well furnishing 30 barrels a day. Mr. J. M. Guffey said, in relation to that fact:

J. M. Guiney said, in relation to that fact:
This well is of great importance, because it
opens up a comparatively new oil center. The
well is situated about three miles northeast of the
Brush Creek field. Our company owns about
2,000 acres of territory there, and are drilling a
number of wells. Display is the handsomest in the city. All in search of bridal gifts thould visit their elegant stores, corner Fifth ave. and Mar-
